

CONSIDERING AN EXTRA SESSION

GOVERNOR SPARKS SENDS FOR
EXPRESSION OF OPINION
FROM MEMBERS.

Governor Sparks is considering the advisability of calling an extra session of the legislature for the purpose of taking action in regard to the money situation, and the possible postponement of the payment of taxes. The chief executive has been approached by a number of people on the subject, but does not seem inclined to take it upon himself to call the session. For this reason he has addressed letters to all the legislators, asking their advice on the matter. Following is a copy of the letter:

To the Members of the Legislature and the Citizens of the State:

There are many citizens of this state, who have expressed a desire to me for a special session of the legislature for the purpose of giving relief to taxpayers in the several counties of the state by extending payment to such time as the legislature may deem expedient.

We feel positive that the financial condition of the state is such that no serious inconvenience would ensue from a reasonable postponement.

In former years the banking institutions of the state have met the demands of the taxpayers by advancing money in the way of loans or overdrafts. It appears to me now, that under the clearing house system, the banks would not do this. However, I do not feel warranted in issuing the proclamation calling an extra session of the legislature without the endorsement of the legislators and the masses of the taxpayers.

So far as the burden of the 10 per cent penalty is concerned, the legislature could remedy that by an appropriation refunding the 10 per cent penalty. The first payment of taxes is delinquent December 2. I do not know of any other reason why a special session should be called at this time.

Will you kindly endeavor to obtain the sentiments of your constituents concerning the effect of such extension upon the several counties in a financial way, and report to me at your earliest convenience your own judgment and also the popular feeling of your county concerning the proposition.

November 18, 1907.

JOHN SPARKS, Governor.
Senator T. L. Oddie has received a copy of the letter, and has interviewed a number of the larger taxpayers of the county, and has found them to be in favor of the calling of the extra session, and the passage of a bill contemplated by the governor.

EAGLES PREPARE FOR BIG BALL

The Eagles' ball, which is to be held on Monday, December 2, promises to be a great success, the greatest of any function given by the local aerle. The committee on arrangements is busy at work now and nothing is going to be left undone that will contribute to the enjoyment of the occasion.

PERSONAL MENTION

A. T. Johnson, general manager of the Spider and Wasp at Wonder, is in the city.

Ray Baker, mine manager for Jack Salsberry, returned last night from Bonnie Claire.

Cal Brougher was one of the arrivals on the train from San Francisco yesterday morning.

J. Ross Moore, assistant engineer to S. C. Lowe of the gas company, arrived here yesterday from San Francisco to look after the construction of the oil plant and the installation of the street lamps.

TONOPAH AND GOLDFIELD RAIL- ROAD COMPANY.

OFFICE OF GENERAL PASSENGER AGENT.

Effective Wednesday, November 20th, trains 3 and 4, leaving Goldfield 9:50 a. m., arriving Tonopah 11:00 a. m., and trains 7 and 8, leaving Tonopah 4:20 p. m., arriving Goldfield 5:30 p. m., will be discontinued, last trains on these schedules running Tuesday, November 19th.

J. F. HEDDEN,
General Passenger Agent.

Rings Dyspepsia Tablets do the work. Stomach trouble, dyspepsia, indigestion, bloating, etc., yield quickly. Two days treatment free. Ask your druggist for a free trial. Sold by Tanopah Drug Co.

PEOPLE SIGNING THE AGREEMENT

DIRECTORS OF BANK FOLLOW IN
THE WAKE OF PRES-
IDENT RICKEY.

The signing of the agreement of the State Bank and Trust company is going ahead, and the days when the bank will reopen are growing less. President T. B. Rickey has pledged his private fortune to the payment of the depositors, and now it is stated, upon what seems to be good authority that the directors of the bank have followed in the wake of Mr. Rickey, and have also pledged their fortunes for the same purpose. The directors are Dr. S. L. Lee, State Senator J. P. Woodbury, Wils Brougher, G. W. Mapes, Alfred Livingston, C. T. Bender, P. H. Peterson and George Meyers. With all these men behind the bank with their individual fortunes, there is little chance of the depositors losing any money.

It is understood that the Nye and Ormsby bank, which is pursuing the same policy as the other, is succeeding in having the agreement signed up by the depositors. Neither bank is prepared to say when its doors shall open, and that will depend upon the celerity with which the depositors sign up.

Notwithstanding that both the State Bank and Trust company and the Nye and Ormsby have their doors closed, still their depositors have been able to have some use of their funds. There are people here who are willing to accept checks on the banks if they can have the assurance that the funds are in the bank. This assurance will be given by the banks upon application, and this is helping some. The State Bank is checking off the amounts that are reported, and the man who accepts checks waits for the money instead of the depositor.

ENGINEER WILL WED NURSE

MRS. ELSA LITTLEFIELD TO BE-
COME MRS. FRANK
DARRAGH.

Frank Darragh, an engineer at the Mizpah mine, will be a passenger on this morning's train, his destination being Eureka, California, where he is to be married on Thanksgiving day to Mrs. Elsa Littlefield.

A pretty romance lies behind the engagement. Mr. Darragh was stricken with pneumonia, and was taken to the Miners' hospital. Mrs. Littlefield was a nurse at the hospital, and fate willed it that she should have charge of Mr. Darragh's case. She was unremitting in her attention, and her nursing was more than half the battle. The patient came through his illness all right, but pneumonia was succeeded by an affection of the heart. When he left the hospital he was the affianced husband of his pretty nurse.

Mrs. Littlefield left shortly afterward for her home in Eureka, California, with the promise of her betrothed to follow soon, and with the day of their wedding set for the twenty-eighth of this month. So Mr. Darragh leaves this morning to cross the desert and scale the mountains, then to be tossed upon the tempestuous seas, to finally sail into the port of happiness across the Humboldt bar.

SAWED AND SPLIT WOOD

Florence ave and Main street, one block above junction, near the first cross street. Wood sawed and split delivered in any quantity free of charge. We will also saw wood at your house for \$2 per cord for lots above five cords. Less than five cords \$2.50 per cord. 11-21-1w

GOLD CRATER IS LOOMING UP

MANHATTAN PROPERTY HAS
TONS OF MILLING
ORE.

Hardly a days goes by without bringing something good in the way of news from Manhattan. L. L. Mushett adds to the good fortune of the camp in the way of development in the Gold Crater, in which he and W. S. Johnson and others are interested.

Mr. Mushett has two assays, which upon their face do not look very big, or convey their importance. They are both from the Gold Crater. One goes \$18.64. This was taken from a shaft which has been sunk to a depth of fifty-five feet, and was then discontinued.

"The depth from which this assay was taken was between fifteen and twenty-five feet," said Mr. Mushett, "and this is as far as we can with safety go down into the shaft. The assay was taken from seventy-five pounds of rock taken from various places in the shaft for the purpose of getting an average milling value. We have at least, 100,000 tons of the rock, and we are going to ship it to the Chapman mill as soon as that plant is ready for operation. This is not a very big showing, but it is only one of many to be found in Manhattan. It means ready money, and that is what we are looking for. As soon as the mills are in operation there will be lots of this kind of rock reduced, for it will cost less than \$9 to mill and haul it, and there are thousands of tons on the dump. A profit of \$10 a ton is good in any country.

"The other assay runs something over \$11 a ton. We have eighteen feet of this and we have by no means found the good values. The ledge is a continuation of the Stray Dog and Union No. 9 vein. We are down ninety feet, and will sink to a depth of 150 feet, at which depth we expect to encounter the main ledge. We have a gasoline hoist and one of the finest galloways frames in the country. It is thirty-six feet in height, and is heavy enough for a 100-horsepower hoist. We are there for permanent business, and are not afraid of the future."

CLAY SET FREE BY GRAND JURY

MAN ACCUSED OF MURDERING
INDIAN IS SET
FREE.

The grand jury yesterday set free Charles Clay, who was charged with the murder of the Indian Little Charley, at Pahump. The killing took place a month or more ago, and Mr. Clay has been detained in jail, pending his hearing before the inquisitors. The prisoner was his own attorney, and his simple recital of the story of the shooting was sufficient in the minds of the jury to give him his liberty.

His story was to the effect that he had gone to Pahump to buy a saddle of the Indians, and when he arrived there he found that a number of them were drunk, having just returned from a pow wow on the Colorado. He broke his leg some months ago, and carried himself with some difficulty. While he was stooping the Indian jumped on his back, and while this one held him another tried to find him with a knife. Clay put his pistol under his arm and fired. He fired a second time, striking his assailant, but at that had to shake him off his back. The Indian died next morning, and his relatives followed Clay, but he kept them off with his weapons until Deputy Sheriff Casey overtook him, and he submitted to arrest on the understanding that Casey send the Indians back, which was done. Clay was held to answer by the justice of the peace at Rhyolite.

TAXES

You are hereby notified that your State and County taxes for the year of 1907 are due and payable. If not paid December 2, 1907, 10 per cent and all cost will be added by law.

NAMES COMMITTEE ON EXAMINATION

PRESIDENT CROCKER OF TONO-
PAH-MANHATTAN COMMIT-
TEE NAMES APPOINTEES.

The Tonopah-Manhattan Promotion committee met last night, President Crocker in the chair, James Force, secretary.

President Crocker announced the committee on examination and investigation which he was empowered to name some meetings ago. The committee is as follows:

Messrs. L. L. Mushett, C. H. McIntosh, Bert L. Smith, J. S. Daveler, Letson Balliet, James Degan and Eugene Howell.

W. W. Booth of the finance committee reported that the committee had been in touch with a number of people in Tonopah and had received very encouraging assurances of support, and had already made some collections. He said that their was a better feeling in the city regarding finances, and that conditions were improving.

E. L. Mushett called the attention of the committee to the fact that it would be necessary to get out some literature regarding the properties, as there had been a great number of inquiries directed to the secretary of the committee and to that of the committee at Manhattan. There had been a number of replies to the questions framed by the committee as to the status of the properties, and Mr. Mushett was of the opinion that this information should be embraced in a booklet which could be sent out in reply to the inquiries.

There was some discussion as to the character of the literature and suggestions were made by C. J. Blumenthal, W. W. Booth and J. S. Daveler, some of which will be acted upon later.

A copy of a resolution passed by the Manhattan committee was received, which favored the call of an extra session of the legislature for the purpose of alleviating the financial situation. Adjournment was taken until next Wednesday night.

"BORAX" SMITH ROAD.

By referring to our news columns today it will be seen that through service on Rhyolite's third railroad will commence on the 25th inst, and another spoke has been added to the prosperity wheel of the metropolis of the Bullfrog district.

When we look over what has been accomplished during the short months of the district's existence, the results attained are a little short of phenomenal.

It was about two years and five months ago that "Borax" Smith started building a railroad out of Las Vegas for the borax mines and the Bullfrog district. Difference over rats for supplies between him and the Salt Lake road used a suspension of work after twelve miles of road had been graded, and he moved his outfit to Ludlow on the Santa Fe and started the Tonopah and Tidewater, which was completed into the district two weeks ago.

No mining camp ever discovered has been so rapidly supplied with transportation facilities as the Bullfrog and it will be many years before one will be.

The last spoke can now be put in the prosperity wheel of Rhyolite by building a good custom mill. There's ore in plenty and it only needs a reduction plant to extract the value.

WOUNDED MAN MAY COME HERE

County Commissioner Sam Lindsay and Dr. Wilkinson, county physician, will go to Beatty this afternoon, and if John Scott, who was shot Sunday night by John Morris, is in condition to be moved, transfer that gentleman to the county hospital at Tonopah. The county has no hospital in this district at present, the one in Rhyolite having been turned into a school house. Unless complications set in, it is said Scott has an even chance to recover.

ACCIDENT TO MISS SHELDON

Word has been received here of a serious accident to Miss Carol Sheldon, daughter of H. F. Sheldon, formerly of this place and now of Manhattan. Miss Sheldon is with her mother at San Anselmo, and while watching a ball game there on Sunday, one of the players let the bat slip from his hands, and the misadventure struck the young lady on the head. She was rendered unconscious, and had to be carried to her home nearby. The doctor who was called declared that she had had a narrow escape from a fracture of the skull, and he feared that concussion of the brain might follow.

The injured girl's sisters, Mrs. Taylor, and Miss Dorothy Sheldon, are living here, but neither of them had heard anything from her mother up to last night, and the presumption is that Miss Carol's injuries are not as serious as was at first feared.
